Results-driven Mid-Level PHP Developer with comprehensive experience building dynamic, scalable web applications. Solid expertise in object-oriented programming (OOP) and modern PHP frameworks, specifically CodeIgniter. Proven track record in full-stack development, managing relational databases with MySQL, and integrating RESTful APIs. Adept at managing project lifecycles, workflow automation, and bridging backend logic with responsive front-end designs.

WORK EXPERIENCE

IT Support and Web Developer - StudyNet Pty Ltd, Dhaka

Nov 2025 - Present

- Spearhead the development and optimization of web applications utilizing PHP frameworks, primarily CodeIgniter.
- Lead the "Scholly" software development project, implementing Bitrix24 for advanced workflow automation and development stage management.
- Design, develop, and consume RESTful APIs to ensure seamless data flow and third-party integrations.
- Architect and maintain robust MySQL databases, writing optimized queries to enhance application performance.
- Collaborate on front-end development, utilizing React, HTML, CSS, and JavaScript to deliver highly interactive and responsive user interfaces.
- Manage version control using Git, ensuring clean code repositories and efficient team collaboration..

Assistant IT Officer - StudyNet Pty Ltd, Dhaka

May 2023 - Nov 2025

- Supported delivery of IT solutions aligned with business requirements, including ERP and CRM configuration and process documentation.
- Contributed to the development and enhancement of the company's CRM system using CodeIgniter
- Developed and maintained modules for lead management, application tracking, and data integration with external platforms.
- Created and maintained comprehensive documentation to support audits, team collaboration, and knowledge sharing.
- Delivered technical support and ensured seamless stakeholder communication for software adoption and troubleshooting.
- Supported project delivery by documenting sprint progress, tracking development tasks, and communicating updates to stakeholders.

Customer Support Administrator - Click Communication, Dhaka

Feb 2016 - Jan 2018

- Acted as a liaison between customers and product development teams, driving product improvements.
- Delivered technical support and resolved customer inquiries to achieve high satisfaction rates.
- Collected and analyzed feedback to identify trends and improve processes.
